9600E FEATURES

Napoleon's 9600E Series is one of the most stylish and efficient furnaces on the market. It's Energy Star rated and performs with higher energy efficiencies, achieving your heating needs with less impact on our environment. The 9600E Series runs using the first, low-fire stage for greater efficiency throughout the heating season. During colder days, the furnace automatically switches to the high fire, second stage to produce additional heat for your home, as if there's two furnaces in one.

VARIABLE SPEED MOTOR

UV LAMP CAPABLE

9600E SPECIFICATIONS

ALL UNITS ARE ENERGY STAR VERSION 4.0 • 95+ AFUE • AMACF ELECTRIC RATING • 2% OR LESS CABINET AIRFLOW LEAKAGE
